

CENTRAL INTELLIGENCE AGENCY
WASHINGTON, D.C. 20505

FOR RELEASE ON RECEIPT

8 July 1975

STATEMENT

Office of the Assistant to the Director
(703) 351-7676
(703) 687-6931 (night)

The Director of Central Intelligence, with the approval of the President, is today releasing the Director's report of 24 December 1974 to the President, including the annexes, covering matters related to the New York Times article of 22 December alleging CIA involvement in a massive illegal domestic intelligence effort. This release is a follow-on to the decision to release the Rockefeller Commission report in view of the public interest in this matter.

The report is released without alteration, as is Annex F, a "Memorandum for All CIA Employees," of 9 May 1973, both of which were and are unclassified. Several other annexes have been declassified. Unclassified versions of all other annexes have been substituted for the originals by deleting classified portions from the original versions. Each such newly prepared version is so identified by an appropriate notation. Bracketed spaces indicate the size and location of all deletions. No textual changes have been made in the report itself or in any of the annexes.

It is to be emphasized that the report was prepared on an urgent basis and forwarded to the White House on 24 December. Continuing review of the topics covered in the report has resulted in some corrections in Director Colby's subsequent discussions with the President, the Director's testimony given the Rockefeller Commission, and in his various statements to congressional committees in the intervening months.

Regarding the memorandum entitled "Influencing Human Behavior" attached to Annex I of the report, it should be noted that no such drug or experimental activities are currently conducted and the Director has approved none.
